DEDUCTIONS FOR INDESTEDNESS.

We hear it charged against the proposition to repeal the law permitting deductions of indebt edness from assessments, that it is an effort to promote legislation in the interest of the rich man as against the interest of the poor man. Nothing could be further from a just criticism, since the deduction system is the means by which rich men escape a large measure of taxa tion. This fact may be demonstrated by an easy comparison of the returns by assessors of the various counties. In these returns the total debtedness sworn to by taxpayers and accept to balance exactly with the returns of indebted ess, but even with the money assessment a lited

These figures need no explanation They amount to a positive demonstration No one can fail to see it who will give to the matter a moment's attention. As the money and banking center of the state, Multnomah county (Portland) holds money and credits in great suncounts. Here the return of money and credits ought certainly to balance the return of local ines, but not so as the following state

It will be seen that in the whole state at this time properly to the amount of litteen millions of dollars dodges taxation through the door of "deduction for indebtedness." In Multinomah alone nearly five millions of dollars escapes by the same door And as tangible property is assessed, these figures represent in fact three times the values for which they stand The loss to the state as nearly as it can be figured is about 10 per cent. That is, 10 per cent of the taxes paid honestly is paid on ac count of those who abirk. In this form, every taxpayer may readily figure the amount in which he is damaged by the dishonesty of oth

IR MEMORY OF LOSAN.

IN MEMORY OF LOGAN.

Scorner Falls, In 18
The memorial services to the memory of John A. Logan were largely attended every seat being filled in the opera b use and even standing room. The several ministers of the city conducted them and Rev. Watson of the Presbyterian church delivered a brilliant eulogy on the 18th and services of the dead general and sonator. His remarks were particularly pointed, apt and brief, encouraging to true worth and manifiness and devotion to public morals and patriotism.

The Poor Little Ones

We often see children with red eruptions on face and bands rough scaly skin and often sores on the head. These things indicate a depraced condition of the blood. In the growing period, children have need of pure blood by which to build up strong and healthy bodies. If Dr. Pierce's Golden Medical Discovery 'is given the blood is purged of its bad elements and the child's development will be healthy and as it should be. Scrot ulous affections rickets lever-sores, hip-joint disease or other grave majadies and suffering are gure to result from negloct and lack of proper Liention to such cases.
